EduCare provides Virtual World learning resources serving international education, teachers, and students.

Note: *To fully experience the immersive Virtual World setting you will need to install the Second Life Viewer, which is quick, easy, and free. Here is a QuickStart for your first steps in a Virtual World: Second Life Knowledge Base*

How to access the EduCare campus in Second Life:

- Go to the Join Second Life page at https://join.secondlife.com/
  Select your username, password, email address, and security questions.
  You will then be able to choose your Avatar from a wide selection.
  You can change your Avatar's look at any time. Select the 'free basic' membership level that allows access to all the Educare resources.

- Download and install the free Second Life Viewer for Windows or Mac OS. More advanced users may prefer the free Firestorm Viewer:
  https://www.firestormviewer.org/

- Start the SL Viewer, login, and you will be teleported to 'Learning Island' for basic lessons in walking, flying, interacting with objects, and such.

- When you are ready, simply click this link to teleport:
  https://maps.secondlife.com/secondlife/Educare/189/124/22

- Teleport to the EduCare campus for a relaxed introduction in the Orientation dome for fundamental platform skills.

- At the landing, click for a Landmark notecard, and join the EduCare group for full access to custom tools and events. Feel free to roam the grounds.

- Contact Kip Roffo in-world for assistance, or send an email to Steven Van Hook at
  steven@wwmr.org
